## Material Available from Environmental Protection Agency

The Environmental Protection Agency has available (free) pamphlets on water pollution, radiation, air pollution, solid waste, noise, pesticides and other pollution problems. Press releases are also available. Teachers may write in and ask to be placed on the mailing list to receive the occasional releases which will be entitled "Environmental News." It is also possible to request information on selected environmental subjects too. Address your letters to: Office of Public Affairs, Attention: Mailing List, Environmental Protection Agency, Washington, D.C. 20460.
